OBJECTIVE

I'm a front-end enthusiast with a passion for building responsive, user-friendly websites. Skilled in HTML and CSS, I create clean, structured, and visually appealing layouts. With Bootstrap, I ensure mobile-first design and rapid prototyping. Have a solid understanding of JavaScript to bring interactivity and dynamic behavior to webpages. React is my go-to library for building scalable, component-based UIs. I enjoy creating clean, functional web interfaces. Focused on improving my coding and problem-solving skills. Always exploring new tools and technologies in web development. Motivated to keep learning and growing as a developer.

EDUCATION

Bachelor of Engineering, Information Technology, Andhra University-Visakhapatnam.

2019 - 2023

CGPA:8.02

PROJECT

Webpage-palmonas

A website that allows user to shop jewellery designed based on HTML ,
